**DETAILED ACTION**

***Allowable Subject Matter***

1. Claim 1, 3, 28-34, 36-42 allowed subject to the Examiner's Amendment described below.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record is attached to the Office Action. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Nimesh Gupta (Reg. No. 64,937) on 8/9/2010.

***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:
5. The closest prior art that the examiner has been able to locate is Hoffman (US PAT 7,249,080) and Perkel (US PG-PUB 2002/0062273).
6. Hoffman provides an investment advice methods comprising: receiving a risk tolerance for a client (see column 2 lines 34-36); receiving preferences for the client, wherein the preferences for the client include an identification of specific assets that a client wants to sell or hold (see column 36 lines 16-18); identifying assets held in the client's portfolio (see column 4 lines 6-11, 54-58); based on the preferences and the risk tolerance for the client, determining a recommended asset allocation (see column 12 lines 61-67); providing a database with ratings for different financial assets (see column 11 lines 63-66); identifying one or more assets in the client's portfolio that are recommended to be sold (see column 12 lines 61-67); for each asset of the one or more identified assets recommended to be sold, generating a list of alternative client portfolio assets recommended to be sold instead of the identified asset (see column 21 lines 18-23, 38-46); wherein an asset is recommended to be sold based on one of the following criteria: (1) the asset is recommended to be sold to achieve a recommended asset allocation (2) the asset is recommended to be sold based on a specific client preference (3) the asset is recommended to be sold in order to achieve sector diversification (4) the asset is recommended to be sold based on a poor rating for the asset in the database (5) the asset is recommended to be sold in order to reduce concentration in the asset, or (6) the asset is recommended to be sold to realize tax loss harvesting;

7. Perkel teaches when a client places an order with a broker in response to an advice interaction with a broker, the resulting trade is deemed a "solicited trade" (see paragraph 4). Perkel further teaches that this advice may include recommending to sell for various reasons correlating to an investment strategy for the client's portfolio (see at least FIG. 9B2). Therefore, Perkel teaches identifying the bases for recommending that assets be sold.

8. While Hoffman and Perkel are similar to the instant application in many respects, there are clear patentable differences. The references, when taken alone or in combination do not disclose generating a plurality of tables wherein each asset of the one or more identified assets recommended to be sold is included in one of the tables, wherein each table corresponds to a reason that identifies the basis for recommending that assets contained in the table be sold, wherein the plurality of tables includes a first table that lists assets to be sold to achieve a recommended asset allocation and a second table that lists assets to be sold due to poor ratings, and wherein the basis correlates to an investment strategy for the client's portfolio;

9. The following is a formal statement of reasons for allowance:

10. Claim 1 is allowed because the best prior art of record, Hoffman and Perkel, alone or in combination, neither discloses nor fairly suggests the limitations, in a method, for providing financial advice, comprising:

receiving a risk tolerance for a client;

receiving preferences for the client wherein the preferences for the client include an identification of specific assets that the client wants to sell or hold;

identifying assets held in the client's portfolio;

based on the preferences and the risk tolerance for the client, determining, via a server computer, a recommended asset allocation;

providing a database with ratings for different financial assets;

Identifying one or more assets in the client's portfolio that are recommended to be sold;

for each asset of the one or more identified assets recommended to be sold, generating a list of alternative client portfolio assets recommended to be sold instead of the identified asset;

wherein an asset is recommended to be sold based on one of the following criteria: (1) the asset is recommended to be sold to achieve the recommended asset allocation, (2) the asset is recommended to be sold based on the specific client preferences, (3) the asset is recommended to be sold in order to achieve sector diversification, (4) the asset is recommended to be sold based on a poor rating for the asset in the database, (5) the asset is recommended to be sold in order to reduce concentration in the asset, or (6) the asset is recommended to be sold to realize tax loss harvesting;

generating a plurality of tables wherein each asset of the one or more identified assets recommended to be sold is included in one of the tables, wherein each table corresponds to a reason that identifies the basis for recommending that assets contained in the table be sold, wherein the plurality of tables includes a first table that lists assets to be sold to achieve a recommended asset allocation and a second table that lists assets to be sold due to poor ratings, and wherein the basis correlates to an investment strategy for the client's portfolio;

receiving account numbers for a plurality of investment accounts the client has at a particular financial institution;

receiving additional preferences wherein the additional preferences include which of the plurality of accounts are to be included in financial advisory considerations;

identifying assets held in the client's portfolio wherein the portfolio includes assets spread across the included accounts; and

recommending placing assets into the included accounts in a tax efficient manner, wherein the tax efficient manner comprises selecting assets with least tax efficiency for purchase in the included accounts that are most tax advantaged.

11. Claims 3, 28-34, and 36-42 are also allowed at least by virtue of their dependence on allowed independent claim 1.

12. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
